

# WHAT ARE THE REPAIR LIMITS ON MY GOODRICH® DE-ICER?

## DAMAGE THAT REQUIRES REPLACING THE DE-ICER INCLUDES:

- Cuts, tears or ruptures that cut the inflatable tube fabric and/or exceed 4" x 9" (102mm x 229mm)
- Broken stitch or thread
- Damage that leaks air and exceeds the patch guidelines

## THE ALLOWABLE NUMBER OF PATCHES IS AS FOLLOWS:

- 3 small patches per 12" (305mm) square – or –
- 2 medium patches per 12" (305mm) square – or –
- 1 large patch per 12" (305mm) square – or –
- 2 small and 1 medium patch per 12" (305mm) square
- Also, no more than 20 pinhole (1/16" / 4.2mm or smaller) repairs are made per 12" (305mm) square

Patches have a one-way stretch across the width of the patch to allow for inflation. The patch must be installed with the length panel parallel to the de-icer tubes as shown in the image below. Failure to do so may result in the patch lifting when the de-icers are inflated.

Part Number	Description
P/N 74-451-AA	FASTPatch™ Repair Kit for Black De-icers
P/N 74-451-S-1	FASTPatch™ Repair Kit for Silver De-icers
P/N 74-451-AE	Pinhole Repair Kit for Black De-icers
P/N 74-451-AP	Pinhole Repair Kit for Silver De-icers
