GOODRICH® NEXT GENERATION PC-12 PNEUMATIC DE-ICERS

ADVANCED DE-ICING FOR YOUR AIRCRAFT

Fully flight certified and approved by Pilatus

Pilatus PC-12 operators asked for a more robust pneumatic de-icing solution for their aircraft. Collins Aerospace has delivered with our new series of enhanced Goodrich® PC-12 de-icers that are thicker, more durable and longer lasting.

Collins Aerospace now offers these next-generation de-icers combined with the advantages of our Goodrich® FASTboot® adhesive system. These rugged de-icers with the pre-applied adhesive provide a smooth and consistent de-icer bond at a fraction of the time needed for application of standard de-icers.

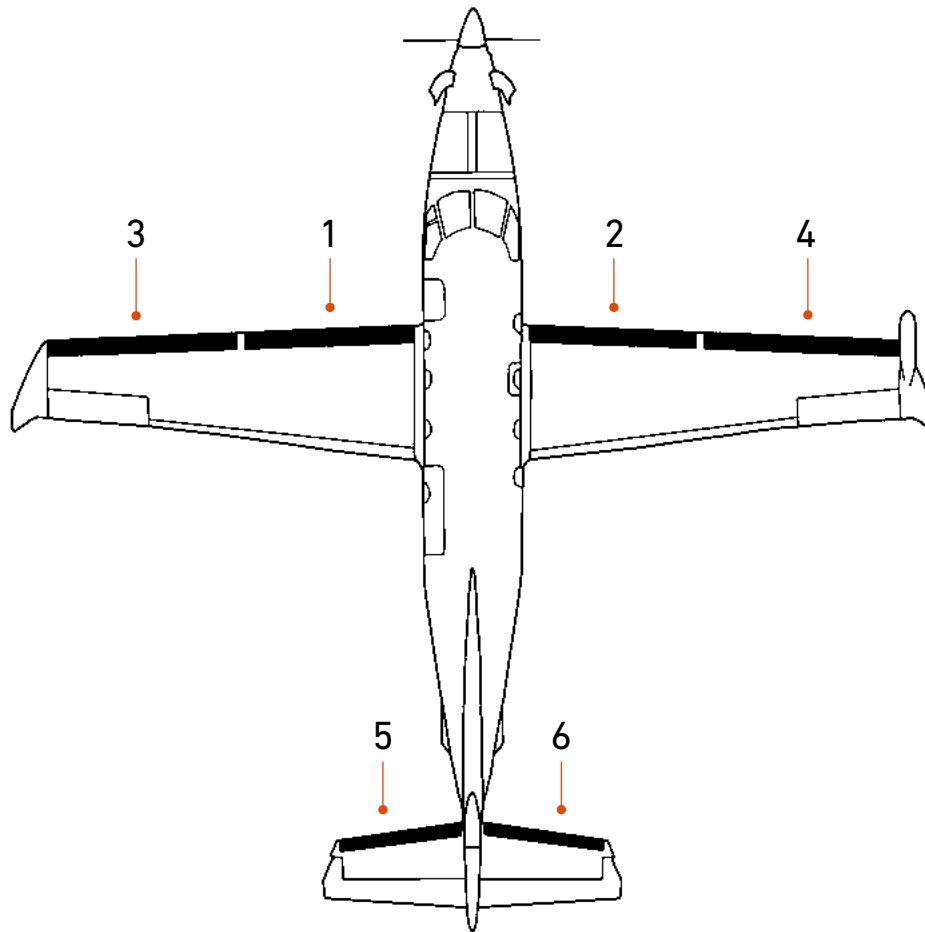

KEY FEATURES AND BENEFITS

- Robust construction
- More resistant to cracking
- Increased resistance to pinhole damage
- Increased resistance to foreign object debris (FOD) damage
- Part for part replacement (attrition, no need to replace in pairs)

- No need to reweigh aircraft. Simply document the weight and moment change in the Aircraft Flight Manual (AFM) Weight and Balance report in accordance with Pilatus Service Bulletin Number 30-012.

GOODRICH PC-12 FASTBOOT DE-ICERS
